## Agreement between

### **European Society of Intensive Care Medicine & Sociedad Chilena de Medicina Intensiva**

The European Society of Intensive Care Medicine (ESICM) and the Sociedad Chilena de Medicina Intensiva (SOCHIMI), both Scientific non-for-profit research and educational associations, whose purpose is to improve care of the critically ill patient, hereby create a strategic partnership which will further the mission of both the ESICM and the SOCHIMI (collectively the "organisations").

As the organisations are focused on quality and safety in intensive care, through the implementation of scientific and educational programmes for their members, collaboration is imperative to enrich members' experiences. Through this partnership, the organisations will exchange the best practices and cooperate actively in order to create synergies that can create added value to both organisations and especially to members and their patients.
